SUMMARY

Software Developer with nearly 3 years of experience building responsive web applications. Proficient in React.js, JavaScript (ES6+), HTML5, CSS3, and Tailwind CSS. Experienced in REST API integration, state management, and performance optimization. Delivers clean, scalable, and maintainable code with hands-on exposure to Node.js, Express.js, and MongoDB.

EXPERIENCE

INA Internet Group, Kolkata

Aug 2023 – Present

Project: Real-Time Restaurant Reservation Platform

Mar 2024 – Present

Role: Software Developer

- Built **responsive and accessible UI** using **React.js** with reusable, scalable component architecture
- Developed a **real-time booking system** with **user and admin panels**, streamlining reservation management
- Improved performance by **~30%** through **lazy loading, debounced search**, and render optimization with **React.memo** and **useCallback**
- Collaborated with the **backend team** to integrate **REST APIs** for seamless data flow and real-time data handling

Project: EV Battery Monitoring & Performance Analytics Dashboard

Oct 2023 – Jan 2024

Role: Software Developer

- Developed a **real-time data visualization dashboard** using **React.js** and **Tailwind CSS** for live EV battery analytics
- Integrated **REST APIs** for live battery data and analytics, enabling sub-second data refresh through optimized API polling
- Optimized **Chart.js** rendering for large datasets, improving historical report load time by **~23%**
- Implemented **advanced search, multi-parameter filtering, and pagination** for efficient data retrieval

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS

React Ecosystem: React Hooks, Context API, Redux, React Router

Backend: Node.js, Express.js, REST APIs, JWT Authentication

Database: MongoDB, SQL

Tools: Git, GitHub, Postman, VS Code, Chrome DevTools

PROJECTS

Artify – AI Image Generation Platform

🌐 Live 🌐 GitHub

React.js, Node.js, Express.js, MongoDB, Razorpay

- Built a **full-stack AI image generation platform**; integrated **ClipDrop API** for text-to-image generation with a credit system
- Implemented **JWT-based authentication**, secure session management, and **Razorpay** payment gateway for premium subscriptions
- Designed **RESTful APIs** for AI request handling, user management, and credit tracking

Portfolio Website

🌐 Live 🌐 GitHub

React.js, Tailwind CSS, Three.js, EmailJS, Framer Motion

- Developed a **fully responsive portfolio** with scroll-triggered animations and 3D elements using **Three.js** and **Framer Motion**
- Integrated **EmailJS** for a functional contact form without a backend server

EDUCATION

B.Tech in Computer Science & Engineering

Jul 2016 – May 2020

Hooghly Engineering & Technology College, Kolkata

CGPA: 7.45

ACHIEVEMENTS

- **3rd Place** – Spark-Hack Competition at Jadavpur University (2018): Built an IoT-based Smart Water Management System to monitor and optimize water usage in real time
- **Top 10 Finalist** – National Health Hack Innovation Challenge (2018): Selected as All India Top 10 Finalist out of hundreds of competing teams
